THD SLIDE DOPPLER PROBE

800056	800063
NOT STERILE - REUSABLE	**STERILE - DISPOSABLE**
5 Shot (90 min/Shot)	**One Shot – 90 min**

Use

THD Slide Doppler Probes are intended to be used with THD Revolution device, for surgical treatment of haemorrhoidal disease, using the Transanal Haemorrhoidal Dearterialisation technique.

General description

THD Slide Doppler Probes shall be used with THD Slide kits and have been designed for maximum sensitivity to identify blood vessels.

Its small size allows the physician easy handling and when used with THD Slide anoscope/proctoscope, which has a port to lodge the Doppler, the operating field is completely unobstructed.

THD Slide Doppler Probes are available in both reusable (for limited treatments) and disposable versions.

THD Disposable Probe is individually packaged and STERILE.

THD Disposable Probe may be sterilised by Ethylene Oxide (EtO).
